MEDICOLEGAL EXPERIENCE

I have been preparing medical reports since 1996 as a Registrar, Senior Registrar and Consultant. I undertake about 600 reports per year. My instructions have are split about 50% claimant, 20% defendant and 30% single joint instruction. My waiting list for appointments is about 1 – 2 weeks. The completed reports are returned to the instructing party within 1 week.

I have been to court on two occasions to provide factual information rather than opinion and twice for expert opinion, but the latter two both settled on the day in my instructing party's favour.

I have been undertaking reports in cases of alleged medical negligence since 2006 and am receiving increasing instructions in this aspect of my medico-legal practice.

PUBLICATIONS

I have published a BSc Thesis, **14 peer-reviewed articles** in a number of respected international journals, **17 abstracts** following presentation of papers at various meetings around the world and a number of invited articles including book chapters. I have on-going research studies on various aspects of Orthopaedics and Trauma.

PRESENTATIONS

I have presented my research papers at *30 formal meetings worldwide* including a number of prestigious international meetings, which have also included a number of prize nominated and winning presentations. I am regularly invited on to the faculty at Orthopaedic meetings and Medico-Legal courses.

COURSES AND MEETINGS

I have attended and presented at courses and meetings both nationally and internationally, which have covered the spectrum of Orthopaedic Surgery.

I have also attended a number of Medico-legal meetings including report writing and courtroom skills courses.

I have obtained the City University Experts Certificate Diploma in March 2007.

I have presented talks on Whiplash injuries to a number of large PI solicitors firms.

I have also presented on the same topics at the annual medicolegal experts meeting organized by Premex.
